

MSI, Ready for Service

Marine Systems, Inc. is a Cummins Authorized Marine Dealer

Equipped, Experience, Ready for Service

*MSI technicians
are trained and
certified to meet
current onshore
and offshore
safety regulations.*

When marine engine failures happen, and prompt, quality service is a must, companies throughout the Gulf Coast and beyond turn to Marine Systems, Inc (MSI).

Time is money, and at MSI, we understand how important it is to get your Cummins engine back up and running as quickly as possible. That is why our certified technicians are available 24/7 to respond to field service calls. We maintain one of the largest stocks of Cummins exchange engines and parts inventories in the region. Our commitment to service is also the reason we operate a fully staffed in-house machine shop. MSI is equipped, experienced and ready for service.

- Around-the-clock parts and service.
- Field repairs and in-house repairs & rebuilds.
- Exchange engines and reconditioned parts in inventory.
- New Cummins parts in stock.
- Factory-trained Cummins service technicians, experts on electronic ignition and controls.
- Year-around staff training program on Cummins engines, and health and safety regulations.

Machine Shop

- Cylinder block repairs are conducted in MSI's on-site machine shop, reducing turn-around time.
- Cummins-certified fuel pump rebuilding facility.

Machine shop capabilities include:

- Line boring.
- Deck surfacing.
- Counter boring.
- Crank shaft magnaflux testing, polishing.

Parts Department

- Parts personnel available 24/7.
- Parts stocked for all popular Cummins engine models.
- Alfa-Laval and Niagara cooling system components in stock.
- Internet access to Cummins QuickServe for latest factory parts information.

- Equipped for any type of engine repair, from minor service work to major overhauls.
- Authorized ABS repair facility.
- Factory warrantied repairs are submitted by MSI's on-staff warranty administrator.
- Fully equipped tool room.
- Each engine failure is analyzed and findings are reported back to client.
- Engines assembled according to Cummins specifications and recommendations.
- Cummins ReCon subassemblies for optimum factory warranty and reliability.
- In-house dynamometer facility to test engines against actual loads before installation.
- U.S. Coast Guard approved, flame resistant, wire-braid hose and steel fittings used for fuel supply lines.
- Proper environmentally friendly parts-cleaning equipment.

Our machine shop is fully staffed with 24-hour work capabilities.

All MSI facilities provide efficient 24-hour repair service and parts throughout the East Coast, Gulf Coast, Mississippi River and the Intracoastal Waterway.
